Introduction

At TAS, we position ourselves as a worldwide frontrunner in certification services, committed to delivering a competitive edge and fostering confidence in the market. Our dedication to excellence is exemplified through our “One-Stop-Service” methodology, customizing our proficiency to cater to the distinct requirements of clients on a global scale.

GOEIC Certification with TAS

TAS takes pride in its endorsement by the General Organization for Import and Export Control

(GOEIC) to perform inspection services globally for shipments destined for Egypt. This endorsement creates opportunities for exporters and importers, streamlining adherence to Egyptian standards by facilitating swift and secure issuance of Certificates of Conformity (COC).

Your Global Compliance Partner.

“

Egypt Conformity Assessment Program (ECAP): Navigating Market Access

Companies engaging in exports to Egypt are obligated to meet the rigorous specifications outlined by the Egypt Conformity Assessment Program, overseen by GOEIC. Although this program aligns with global standards, it introduces the complexity of managing national variations in Arabic, presenting translation complexities. Importers encounter compulsory inspections of their shipments, with non-compliance risking potential setbacks such as market access delays, financial penalties, or even the return of shipments.

Key Points in the GOEIC Certification Process

1

GOEIC company registration.

2

Testing according to Egyptian standards

3

Pre-shipment inspection

4

GOEIC Certificate of Inspection (COI)

GOEIC Certification: Essential for Market Entry Our Treatment

For products to legally enter the Egyptian market, acquiring GOEIC certification is imperative. TAS, as a recognized notified body, streamlines the certification process, ensuring products adhere to regulations and safety standards with utmost assurance.

Guidance from Experts Facilitating Efficient Market Entry

TAS provides all-encompassing assistance, encompassing product evaluation, technical pre-evaluation, and profound understanding of local prerequisites. Our proficient experts, adept in the Egypt Conformity Assessment Program, guarantee streamlined market access, minimizing both time and costs for businesses.

Navigating Egypt's Regulatory Landscape

In Egypt, our team of experts, integral to the vast TAS network, guarantees a service that is flexible and responsive. We adeptly navigate the intricate regulatory terrain, offering support from testing to registration in your preferred language.

Decrees Governing ECAP

Decree 991/2015, Decree 43/2016, Decree 44/2019, Decree 195/2022, and Decree 403/2022 form the regulatory framework for the Egypt Conformity Assessment Program. These decrees signify pivotal alterations to import clearance procedures, encompassing substantial expansions to the roster of regulated products.

Committed to offering support throughout the entire compliance chain and armed with global expertise, TAS stands as your dependable partner. Allow us to successfully navigate you through Egypt's regulated market, ensuring your products consistently meet the highest standards.

Advantages of COI/COC/ILAC Certificate

Economize time and costs with technical pre-checks.

Mitigate the risk of non-compliance and operational disruptions.

Expedite time-to-market with swift COI issuance.

Collaborate with seasoned professionals providing both global and local insights.
